

Jan Mark Pereda

PROFILE

I am a Full Stack Web Developer focused on building clean, scalable, and user-friendly web applications. I enjoy creating responsive interfaces and turning ideas into practical digital solutions.

Outside of development, I am passionate about badminton. I was a varsity player and have competed in tournaments, including national ranking competitions, which helped me develop discipline, focus, and teamwork.

WORK EXPERIENCE

Full Stack Web Developer | Lily & Co

07/2023- 08/2025

- Currently leading the design and development of scalable web platforms and e-commerce systems for Lily & Co., a modern fashion and lifestyle brand. I work across teams to develop digital infrastructure that supports both customers and operations.
- Developed and deployed a custom internal stocking and inventory management system that reduced out-of-stock errors by 70%
- Integrated and customized Shopify front-end and back-end to streamline product updates, promotions, and checkouts
- Built interactive dashboards for sales analytics and performance tracking using PostgreSQL and React
- Implemented automated workflows for inventory syncing and email alerts, reducing manual input by 50%
- Led migration of legacy code to modular, maintainable components using modern JS frameworks
- Ensured 99.9% uptime with optimized server architecture and cloud deployment via AWS

Full Stack Web Developer | MSTCONNECT EDUCATIONAL CONSULTANCY

07/2022 - 07/2023

- At MSTConnect, I contributed to their e-learning and online training ecosystem, developing educational tools and managing scalable user systems.
- Developed an end-to-end Learning Management System (LMS) used by 10,000+ students and professionals
- Created custom quiz engines, certificate automation, and progress tracking modules
- Integrated secure payment gateways and user management systems
- Optimized API calls and database queries for fast user load times and system reliability
- Collaborated with marketing and design teams to launch new features aligned with enrollment cycles

Freelance Web Developer Spinhub

03/2019 - 06/2023

- Industry: Sports & Entertainment
- Tech Stack: WordPress, JavaScript, HTML/CSS, Elementor, Google Analytics, WooCommerce
- Served as a freelance Full Stack Web Developer for SpinHub, a sports and recreational events hub offering billiards, table tennis, badminton, and live tournaments. Focused on building immersive, audience-focused websites and systems to support community engagement and online bookings.
- Developed a sports event registration system for tournaments and club activities
- Created interactive websites that showcased schedules, rankings, and live match updates
- Designed promotional landing pages for badminton leagues, billiards events, and recreational promos
- Integrated booking forms, calendar systems, and Google Maps for real-time court availability and directions
- Customized WordPress themes to reflect SpinHub's dynamic brand and athletic culture
- Built WooCommerce-powered online stores for sports gear and merchandise
